

Safety Instructions (regarding 'GEL' BURN TEST)

Make Your Safety a Priority.

1. Never hold gel directly with bare hands, always use some holder while conducting burn test.
2. Never leave the premises unattended till gel get completely burnt and surface on which it drops get cooled, remember nothing glowing should be left.
3. Never burn gel on or near anything that can catch fire. Keep burning gel away from furniture, drapes, bedding, carpets, books, paper, flammable decorations, etc.
4. Do not place lighted gel where they can be knocked over by children, pets or anyone else.
5. Never touch or move gel while it is burning or while the gel is liquefied, it can cause skin damage due to extremely high temperature attained and its fast burning.
6. Don't burn gel completely all the way down. For a margin of safety throw it water or ceramic surface to burn completely for your test purpose.
